Hi Jim,

Thanks for the link. I will look into this.

Also, attached please find a copy of a letter to DOGGR issued in Nov 2011 that clarifies EPA's position on waste gas injection as a Class II activity.

Regards,

David

Subject: guidance document

David ... Thanks again for your help today. Sorry to drag you so deep into the lunch hour. Here's a link to the guidance document:

<http://www.epa.gov/region4/water/uic/downloads/di/cl2clarification.pdf>.

I found it here:

http://www.conservation.ca.gov/dog/general_information/Pages/UICApplicationGuidance.aspx

Looks like someone put a lot of work into it. I wondering when it was issued and why.

Thanks,

Jim
